During 1938, and 1939, naturalist Frank Fraser Darling stayed periodically on the Scottish island of North Rona, the remotest British island ever permanently inhabited. The book is an account of the seals, fish and birds that make the island their home and records Darling's attempts to restore the island's ruined chapel.

Naturalism is a term that stands for a family of positions that endorse the general idea of being true to, or guided by, "nature," an idea as old as philosophy itself (e.g., Aristotle is often called a "naturalist") and as various and open-ended as interpretations of "nature." Since the rise of the modern scientific revolution in the seventeenth century, nature has come to be ...

Naturalism Essay Naturalism in terms of literature is a special perception of the reality of the world around us.

Everything happening around us seems to be an experiment held by nature. Naturalism neglects supernatural powers and considers the nature (the outside world, environment) to be the primary reason for everything happening [Augustine]. The question of naturalism is the question of ...

Living at Dundonnell and later in the Summer Isles, Fraser Darling began the work that was to mark him as a naturalist-philosopher of original turn of mind and great intellectual drive. He described the social and breeding behaviour of the red deer , gulls , and the grey seal respectively, in the three academic works A Herd of Red Deer , Bird Flocks and the Breeding Cycle and A Naturalist on Rona .

Rona (Scottish Gaelic: Rònnaigh) is a remote Scottish island in the North Atlantic. Rona is often referred to as North Rona in order to distinguish it from South Rona (another small island, in the Inner Hebrides). It has an area of 109 hectares (270 acres) and a maximum elevation of 108 metres (354 ft). It is included within the county of Ross-shire (Ross and Cromarty).
