Claim Evidence Reasoning 6th Grade

6th grade students have lots of ideas and generally know the importance of evidence; however, they often lack the structure to effectively communicate and make connections. Using Claim-Evidence-Reasoning helps establish this important skill!

Sixth grade Lesson Using Claim-Evidence-Reasoning to ...

Students, especially 6th graders, require a significant amount of guidance when asked to provide meaningful evidence to support scientific arguments. I teach my students to use Claims-Evidence-Reasoning (C-E-R). Please refer to my lesson Using Claim-Evidence-Reasoning to Support Student Ideas in Science for more information on C-E-R.

Claim Evidence Reasoning Worksheets - Kiddy Math

After repeatedly restating what Claim and Reasoning was, I decided to re-write the CER template instead of going around repeating myself. I also changed the sentence starter for the Reasoning part because one 6th grader started his reasoning sentence that way and I thought it was great. Here's my new, updated CER template with sentence starters:

Claim Evidence Reasoning - CER | Mr. Gonzalez's Classroom

Stating your claim is like sitting your reader down on your roller coaster. It's your first step. Then, you give evidence. Your evidence is like putting on one strap of the seatbelt. Your reasoning is like putting on the other strap. Mentioning your claim at the end of this process is like snapping it all together.

My Favorite Lesson Plan for Teaching Claim, Evidence, and ...

According to the Claim, Evidence, Reasoning (CER) model, an explanation consists of: A claim that answers the question Evidence from students' data Reasoning that involves a rule or scientific principle that describes why the evidence supports the claim

Using the Claim, Evidence, Reasoning (CER) Framework in ...

The next step is to tell your readers how your evidence is supporting your claims. You have already established a link in the first step. It is now time to describe and explain how the relationship works. You can also answer the question of why the evidence is making your claims more powerful. Cite
