Ecology in ancient civilizations (Book, 1975) [WorldCat.org]

Environmental Problems of the Greeks and Romans: Ecology in the Ancient Mediterranean gives a new perspective about nature and the delicate place it held in ancient society and how its effects damaged a civilization beyond repair.

Environmental Problems of the Greeks and Romans: Ecology ...

Cultural ecology arose primarily through the work of anthropologist Julian Steward, whose work in the American southwest led him to combine four approaches: an explanation of culture in terms of the environment in which it existed; the relationship of culture and environment as an ongoing process; a consideration of small-scale environments, rather than culture-area-sized regions; and the connection of ecology and multi-
