international trade. Regional trade agreements like NAFTA and the EU frequently use economic tools to achieve political goals.

What is International Political Economy?

This article argues that the origins of the financial crisis of 2008 reside in the conditions of economic globalisation in the context of an imperfect world monetary order. It first describes the emergence of globalisation, after the demise of the Bretton Woods Monetary System, as a 'historical structure' in which financialisation has become the dominant mode of capital accumulation.
