Ivor Armstrong Richards, known as I. A. Richards, was an English educator, literary critic, and rhetorician. His work contributed to the foundations of the New Criticism, a formalist movement in literary theory which emphasized the close reading of a literary text, especially poetry, in an effort to discover how a work of literature functions as a self-contained and self-referential aesthetic object. Richards' intellectual contributions to the establishment of the literary methodology of the New

In that period he wrote three of his most influential books: The Meaning of Meaning (1923; with C.K. Ogden), a pioneer work on semantics; and Principles of Literary Criticism (1924) and Practical Criticism (1929), companion volumes that he used to develop his critical method. The latter two were based on experimental pedagogy: Richards would give students poems in which the titles and authors' names had been removed and then use their responses for further development of their "close ...
