The idea behind Solving Complex Problems is: analysing situations, training and teaching people, coaching, guiding and facilitating them towards good decisions. This is important, because when problems become highly complex, how do you know you are solving the problem you or your client are actually experiencing?

## **Solving Complex Problems (second edition) | De Haan, De**

...

Intuition is used when no new knowledge is needed - you know enough to be able to make a quick decision and solve the problem, or you use common sense or experience to solve the problem. More complex problems or problems that you have not experienced before will likely require a more systematic and logical approach to solve, and for these you will need to use creative thinking.
