At the end of the day, equipment managers have options. They have options as to how they go about assessing their equipment, and they have options as to what they replace their equipment with (i.e. new, used). "If you have a lot of machines in that dreaded red zone, think about the forecasted workload for the coming year," Vorster advises.

Establishing a Standard for Equipment Replacement

December 2020 is the Date of Withdrawal (DoW) of the standards to supersede IEC 60065 and IEC 60950-1. The new standard is IEC 62368, which will replace 60065 (Audio/Video) and 60950 (IT) for external power supplies. IEC 62368-1 was published in Europe during the second half of 2014. Originally the DoW was June 2019, but was changed to December 2020.
